Handmade with Love

The Ancient Artistry of Reviving Wellness

Infused with exhilarating aromas & fragrances of our range of wellness blends, we offer you a selection of our finest wellness products, handcrafted with the utmost care and affection to our artistry.

Our Home

Welcome to our home of healing and wellness! Our home is also our workshop, which dates back to the early 1900s. It was one of the last buildings remaining from that era at the time of Healing Island's initiation. Set in the heart of the city, surrounded by lush greenery, it is truly a place of exuberance and fascination. Hence, it is where all the magic transpires.

Surrounded by the exhilarating aromas & fragrances of our range of wellness blends, we offer you a selection of our finest wellness products, handcrafted with the utmost care and affection to our artistry.

We prioritize the concept of “hand-crafted” wellness, as we believe in the authenticity and sustainability of our products. Therefore, we ensure that our products are embedded with a touch of warmth and wonder, the same as that of what embraces our beloved home, Healing Island.

Our Story

In a persistent search for the essence of serenity, Healing Island came into being in an otherwise perplexing world of increasing mayhem. It is a brand that remains in the hands of Dila Weerasinghe, whose unconventional creativity and unwavering commitment have sustained a range of handcrafted wellness products, simply induced by the love and passion for healing.

The journey began in 1997. Intrigued by the abundance of herbaceous yields and the ancient healing elixirs found on our very own exquisite Earth, a local workshop store centralized the production of fresh, curated and handmade wellness products, with all its healing powers.

Healing Island has thus sojourned as a close-knit team, in which dedicated women tirelessly engage in the production process with the continuous impartment of inspiration, warmth, enthusiasm, skill, and love towards their work. Hence, the artisanal products have enabled these women to sustain their families, which is what makes Healing Island so unique.

Thereby, Healing Island is perceived as a locally produced, fair crafted brand, that is also immersed in the art of invigorating both body and mind with the help of custom-made soothing wellness for absolute indulgence.

Our Mission

To create a product utilizing the finest, purest and earthiest ingredients with time-honoured recipes.

We strive to bring a holistic touch to your wellness routine while preserving the gentle essence of purity to make you feel replenished throughout your journey of healing.

Our Purpose

To share nature's abundant healing powers, through an artisan range of wellness products, brought to life by the spirited team of Healing Island.
