A Sanctuary of Healing

Dating back to the early 1900s, stands one of the last architectural gems of its era. Nestled in the heart of the city and surrounded by lush greenery, it is a space of vibrancy, inspiration, and quiet magic, where tradition and craftsmanship come to life.

Amidst the soothing fragrances of wellness blends, a creation of products that embodies the essence of authenticity and sustainability. Every handcrafted piece carries the warmth and wonder of Healing Island, bringing you in tune with nature's abundant gifts.

A Journey of Passion and Purpose

In the midst of an ever-changing world, Healing Island recognised the need for authentic selfcare. Business Innovator, Dila Weerasinghe, whose boundless creativity and dedication continues to shape the brand, a celebration of handcrafted wellness, rooted in a love for healing and nature.

The journey began in 1997, and remains inspired by the ancient wisdom of herbal remedies and the healing properties of Earth's natural treasures. The small yet passionate workshop became the heart of fresh, handcrafted wellness products, preserving time-honored traditions while embracing modern needs.

At Healing Island, the artisans, primarily a dedicated team of women, pour their skill, love, and warmth into every creation. Their craftsmanship not only preserves a fading art but also empowers them to sustain their families. This spirit of dedication makes Healing Island more than just a brand, it is a community, a story of resilience, and a tribute to the art of a wellness journey.
